Physiology Faculty Position

The Campbell University Jerry M. Wallace School of Osteopathic Medicine (http://www.campbell.edu/cusom) invites applications for the Tenure-Track position of Physiology Faculty at the academic rank of Assistant or Associate Professor. This individual is responsible for teaching in the physiology courses and other topics relative to expertise in both the Osteopathic Medicine (DO) and Master of Science in Biomedical Sciences (MSBS) curricula using traditional and innovative modes of delivery. Duties for this hard-money position also include participation in curriculum development and implementation; serving as an academic advisor; membership on CUSOM and University committees; participation in the interview and selection process of CUSOM students; continued scholarly activity and participating in campus and community service activities.

CUSOM is located in the heart of North Carolina and is within 30 miles of Raleigh and Fayetteville and 90 miles from Atlantic Ocean beaches. Nearby institutions offering potential collaborative research opportunities include Duke University, University of North Carolina at Chapel Hill, North Carolina State University, as well as the Research Triangle.

Job Requirements

Candidates are required to have earned a PhD or equivalent degree in physiology or related discipline from an accredited institution, a record of scholarly activity and University/Program service. Prior successful teaching experience at a medical or professional school level, as well as experience as a faculty advisor is desired. Development of an independent research program is strongly encouraged. The candidate must be able to communicate effectively to all groups through verbal and written communication. Standard computer literacy is required.

Application must be submitted online at the following link and should include a cover letter, curriculum vitae, teaching and research statements, and the names and contact information of three references.

Campbell University is unable to accept paper or email applications. Please visit us online at http://www.campbell.edu/employment/ to submit your application. Application should include a cover letter, curriculum vitae, teaching and research statements, and the names and contact information of three references. Please Note: All positions at Campbell University require honesty, integrity and an understanding of the Mission Statement of Campbell University.
