**Dr. Schoborg Medical Education Advertisement**

**Position Title:** Assistant/Associate/Full Professor

**Department:** Biomedical Sciences

**Job Category:** Faculty

Job Summary: The Department of Biomedical Sciences (DBMS) at East Tennessee State University (ETSU), Quillen College of Medicine, invites applications for multiple full-time tenure track, open rank faculty positions. Based on the existing strengths in cardiovascular/renal, infectious disease/inflammation, neuroscience and cancer research areas, we encourage applications from individuals with research expertise in one or more of these areas. Cluster or group hiring in the areas of departmental strengths will also be considered.

Preference will be given to those applicants who have a strong publication record and nationally competitive research program. Applicants with extramural funding through the Department of Veterans Affairs (VA) or who are eligible to apply for VA funding are encouraged to apply. Applicants are expected to engage in basic and translational research, sustain independent research funding, publish in high quality peer-reviewed journals, and participate in teaching of medical and graduate students. Administrative duties may include serving on Departmental, College and University committees.

This is an excellent opportunity as the university offers state-funded positions, competitive salary, ample lab space, core facilities, opportunity to mentor students, and a collaborative environment. Our very collegial and collaborative environment also extends to the clinical departments and other colleges at ETSU. The university is a state-supported institution serving -15,000 students. The College of Medicine consistently ranks among the top Schools nationwide for rural medicine and primary care education.

Johnson City is located at the base of the scenic Appalachian Mountains and provides a friendly, small-town atmosphere. Our community also has a low cost of living, excellent public and private schools, clean mountain air, a temperate climate, many outdoor recreational opportunities, light traffic and southern hospitality.

ETSU is committed to a diverse and inclusive workforce by ensuring all of our students, faculty, and staff work in an environment of openness and acceptance. Successful candidates should have a demonstrated commitment and contribution to fostering and advancing equity, diversity and inclusion. East Tennessee State University (ETSU) is an Equal Opportunity/Affirmative Action employer. Women and underrepresented minorities are encouraged to apply.
**Knowledge, Skills, and Abilities:** Expertise and ability to build a nationally competitive research program which hosts trainees and collaborates within as well as outside the department.

Experience in teaching medical and biomedical courses or the willingness to develop such skills is required.

**Required Qualifications:** Ph.D., M.D. or equivalent degree

Postdoctoral research experience.

For Associate/Full Professor, evidence of established research program with extramural funding is required.

**Preferred Qualifications:** Nationally funded research program

**Salary:** Competitive starting salary commensurate with education and experience.
