Position: The Department of Nutrition and Integrative Physiology in the College of Health and Human Sciences at Florida State University seeks candidates for a full-time (9 month) tenure-track faculty position at the rank of Assistant Professor. The successful candidate is expected to develop an extramurally funded research program that will strengthen and complement the department’s ongoing research activity. The salary and startup package are competitive and commensurate with qualifications and experience.

Required Qualifications: Applicants must have an earned doctorate in nutrition, physiology, or related discipline and have significant postdoctoral training or postgraduate experience. They must demonstrate a record of scholarly publications in peer-reviewed scientific journals and evidence of extramural support for research activities. Preference will be given to applicants conducting research related to nutrition and diet with regards to improving health and physical performance.

Responsibilities: The successful applicant will be expected to: (1) develop/maintain a nationally and internationally recognized extramurally funded research program, (2) contribute to the department’s teaching and service efforts at the undergraduate and graduate levels, and (3) recruit and mentor graduate students.

The Department, College and University: Applicants are encouraged to explore the College of Health and Human Sciences website (https://healthandhumansciences.fsu.edu/) for more information about the department and college. The Department of Nutrition and Integrative Physiology is the 6th largest department at Florida State University with 1,250 undergraduate and 100 graduate students. The department offers undergraduate majors in Athletic Training, Dietetics, Exercise Physiology, and Food and Nutrition and graduate degrees at the master’s and doctoral level in Exercise Physiology, Nutrition and Food Science, Sports Nutrition, and Sports Sciences. Florida State University holds the Carnegie Research University designation as a very high research activity institution. It is located in Florida’s capital city of Tallahassee. Florida State University has been officially designated as a preeminent research university by the Florida Legislature as a result of having met a set of rigorous benchmarks. Florida State University is ranked #19 among national public institutions in the last U.S. News and World Report rankings.

The University serves a culturally-diverse student population of over 42,000. The history of Florida State University can be accessed online at http://www.ir.fsu.edu/FSU_History.html.

Application Procedure: Please submit applications online at http://jobs.fsu.edu. Search Job ID #49916 for this position. Applicants should submit electronically, the following documents (1) letter of application, (2) curriculum vitae, (3) statement of future research plans and (4) contact information of at least three professional references. Deadline for applications is October 28, 2021. Review of applications will begin immediately. All applications will be held in confidence and references will not be contacted without the candidate’s permission.
