The Department of Biomedical Education and Data Science at the Lewis Katz School of Medicine at Temple University is seeking qualified applicants for a full-time non-tenure-track faculty position for a physiology and pharmacology educator/scholar. Applicants should have training and experience teaching human/medical physiology; additional experience and knowledge in pharmacology is preferred. Candidates must hold a terminal doctoral degree (Ph.D., D.O., M.D. or equivalent). The department has a strong teaching program and faculty members play a major role as educators and directors of multiple courses in the Schools of Medicine, Dentistry and Podiatry. Recent graduates of teaching-track PhD programs or those who have completed education-based postdoctoral fellowship programs are encouraged to apply.

**Procedure for Candidacy:** In order to be considered for this position, you must complete an online application, which is available here: [https://bit.ly/3PAJzrW](https://bit.ly/3PAJzrW) Your application will not be considered complete until you have submitted all of the required documents and information. All documents must be in PDF format. Application materials should include a curriculum vita, personal statement that summarizes your teaching philosophy and experience, professional goals, three professional references names/contact information and a statement describing participation in activities that promote diversity and inclusion and/or plans to make future contributions is strongly encouraged.

Please address your application to:
Dr. Steven Popoff, Professor and Chair
Department of Biomedical Education and Data Science
Lewis Katz School of Medicine at Temple University (LKSOM)
C/O Jessica N. Vega, Senior Physician/Faculty Recruiter, LKSOM
3420 N. Broad Street, MRB 101
Philadelphia, PA, 19140
Email: jessica.vega@tuhs.temple.edu

The review of applications will begin immediately and will continue through July 31, 2022. Only complete applications will be considered. We are especially interested in qualified candidates from diverse backgrounds and under-represented groups. For more information about our commitment to diversity at the Lewis Katz School of Medicine, please visit OHEDI. COVID-19 vaccinations are required for employment at Temple University, unless granted a religious or medical exemption (see [www.temple.edu/coronavirus](http://www.temple.edu/coronavirus)). The University is especially interested in qualified candidates who can contribute through their research, teaching, and/or service to the diversity and excellence of the academic community. Lewis Katz School of Medicine at Temple University is an Affirmative Action/Equal Opportunity Employer and strongly encourages applications from women, minorities, veterans, and persons with disabilities.
