Assistant Professor-in-Residence
University of Connecticut

The Department of Physiology and Neurobiology (PNB) at the University of Connecticut invites applications for a non-tenure track Assistant Professor-in-Residence, with an anticipated start date in Fall 2021. The University of Connecticut has an idyllic campus located just outside of Connecticut’s capital city of Hartford, which makes it an exciting place to live, learn, work, and play, with proximity to Boston and New York City. The successful candidate will join a vibrant department with a deep commitment to undergraduate education and history of pedagogical innovation. Candidates will be expected to participate in teaching human anatomy and physiology, an associated laboratory, and to develop new educational initiatives that provide PNB undergraduates with a life-transformative education. Opportunities are also available to pursue projects in the scholarship of teaching and learning, and engage in professional development related to the candidate’s pedagogical interests. Candidates are not expected to maintain an active research program.
