University of South Alabama, College of Medicine
Department of Physiology and Cell Biology

The Department of Physiology and Cell Biology at the University of South Alabama, College of Medicine is seeking to fill one research-intensive tenure-track assistant/associate professor position. The applicant’s research focus must align with existing faculty interests, which include cardiovascular, pulmonary, neural, cancer, and mitochondrial biology, biomedical imaging, mechanics and modeling. Successful candidates will contribute to the college’s graduate and medical education missions. We are seeking individuals who are highly engaged and work well with basic and clinical collaborators. Competitive applicants must have Ph.D. and/or M.D. degrees, postdoctoral experience, and a demonstrated aptitude in competing for extramural grant support. Also, each applicant should email an application packet, including an introductory letter, complete curriculum vitae, summary of research and teaching interests (1-page limit), and contact information of three references to the Search Committee at pcbsearch@southalabama.edu.
