Postdoctoral Fellowship Opportunities in Regenerative Medicine and Stem Cell Biology
NIH/NHLBI T32
University of Illinois at Chicago
College of Medicine
Department of Pharmacology and Regenerative Medicine

The University of Illinois College of Medicine in Chicago invites applications for postdoctoral fellowship positions in regenerative medicine, stem cell biology, developing organoids, novel approaches to treating inflammatory diseases, drug discovery, nanotechnology, cell mechanics, learned immunity to target cancer, genetic models of diseases, and Covid-19 therapies for appointment on our T32 Postdoctoral Training Program. Trainees will be matched with an appropriate faculty mentor for their postdoctoral training. This program provides up to 3-years of state-of-the-art research training, stipend at NIH-levels, and funding for conference travel.

This program, currently in its 28th year, was borne out of our commitment to providing research training opportunities. Our pre-eminent goal is to provide state-of-the-art research training for an outstanding group of predoctoral and postdoctoral trainees.

Qualifications: A PhD, MD, PharmD, or MD/PhD degree is required. Experience with biomedical research is also highly desirable. Competitive candidates will have a publication record and excellent communication skills. Due to NIH regulations, candidates must be US citizens or permanent residents.

For further eligibility requirements, please refer to the NIH guidelines for training grant appointments: https://grants.nih.gov/grants/policy/nihgps_2012/nihgps_ch11.htm

To Apply: For fullest consideration, qualified candidates should submit their curriculum vitae electronically to Dr. Amelia Mutso at amutso@uic.edu.

University of Illinois faculty, staff and students are required to be fully vaccinated against COVID-19. This employment offer is contingent on your timely submission of proof of your vaccination. If you are not able to receive the vaccine for medical or religious reasons, you may seek approval for an exemption in accordance with applicable University processes.

As an EOE/AA employer, the University of Illinois encourages applications from individuals regardless of an applicant’s race, color, religion, sex, gender identity, sexual orientation, national origin, and Veteran or disability status. The University of Illinois conducts background checks on all job candidates upon acceptance of contingent offer of employment. Background checks will be performed in compliance with the Fair Credit Reporting Act. The University of Illinois System requires candidates selected for hire to disclose any documented finding of sexual misconduct or sexual harassment and to authorize inquiries to current and former employers regarding findings of sexual misconduct or sexual harassment.
